

These instructions are for a friend you wish to chat with using the Google Meet app (which displays live subtitles)

You (friend) will need to:

- Have a Gmail email account (something@gmail.com) and know its password.
- Download the Google Meet app onto your smartphone (or iPad).

Download the app by clicking on the appropriate link below:

For Apple iPhone or iPad

<https://apps.apple.com/gb/app/google-meet/id1013231476>

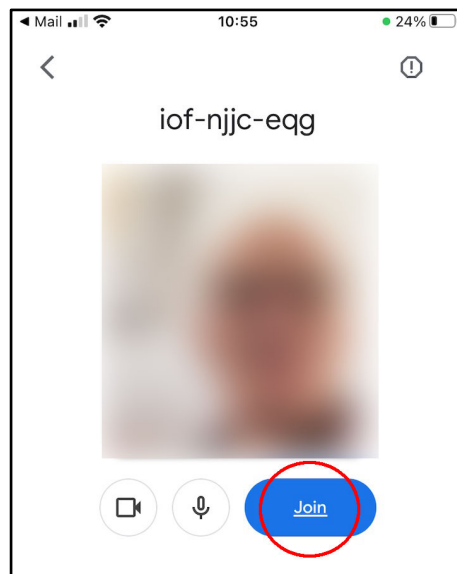

For an android phone:

https://play.google.com/store/apps/details?id=com.google.android.apps.meetings&hl=en&hs=193&o_ref=https%3A%2F%2Fwww.google.co.uk

After downloading the app, click on it and login using your **Gmail email address** and password.

Then wait for an email from your friend with a link that you will click on and then click 'Join' when your new app loads. (See photo on the right).

The email will be sent to whichever email your friend normally uses - not necessarily your Gmail address

You can choose whether your friend sees your face or your environment.

Click the camera icon to display whatever your front camera is pointing at. (See photo on the right).
